SHARE THE LAKE CANADA WEBSITE MISSION STATEMENT

This website is designed to create a community of like-minded neighbours who understand that everyone has the right to access and use the lake provided it is done in a respectful manner that not unreasonably infringes on someone else's personal enjoyment.

Share The Lake is a public awareness campaign created by lakesiders to ensure all recreational users have fair and equal access to the beautiful natural resources of all lakes. Our first initiative is the Big Rideau Lake.

As the largest lake in Eastern Ontario, the Big Rideau attracts many recreational users. All make an impact: some less than others.

As a community based organization, thank you to all the volunteers and neighbours who invest time and commitment into this initiative.

The Share the Lake public awareness campaign welcomes all comments, inquiries and interested supporters to send us your thoughts and ideas!”

Full website to follow soon!
